ABOUT ME

Hi I'm Rachel, the Community Paramedic for Healthier South Wirral Primary Care Network.

I work as part of the Acute Response Team.

During the COVID-19 pandemic, I have seen COVID positive or possible COVID patients.

I am currently working on masters' modules. I have completed level 7 clinical examination and diagnostics, and I am hopefully starting prescribing this year.

Telephone appointments are added by each surgery to our extended access- these are for any ailment. This is the same for home visits.

HOW CAN A COMMUNITY PARAMEDIC SUPPORT YOU?

A Community Paramedic can provide support for:

- My role is to assess, treat, and refer patients in a timely manner. This is done via hub appointments, telephone appointments or home visits.
- Due to my skill set if there is something I am not able to tend to, the GP will.

TIMETABLE

Monday-Friday	10am-6pm
